

2025 Fiduciary Training Series, Part 4: Fiduciary Risk Litigation (Registration Link)

Over the past two decades, participant class action lawsuits—particularly those involving ERISA-covered defined contribution plans—have created ongoing challenges for plan sponsors and fiduciaries. Decisions regarding the hiring and monitoring of recordkeepers and trustees, along with the selection and oversight of investment options, are increasingly influenced by litigation risk concerns.

This webinar will dive into the core fiduciary duties of prudence and loyalty, highlighting common litigation triggers such as excessive fees, fund selection and performance, and company stock. It will also explore emerging areas of concern, including alternative investments, cryptocurrency, and cybersecurity.

Attendees will gain valuable insights into:

- Fiduciary actions that commonly lead to litigation
- Best practices for minimizing legal exposure
- High-risk areas in fiduciary decision-making

Ideal for plan sponsors, fiduciaries, and benefits professionals, this session provides practical, actionable guidance to help navigate today's complex legal landscape and strengthen fiduciary oversight.
